

## BUSINESS ASSURANCE

# FOUNDATION COURSE ISO 14001:2015

A training course that really helps you to understand the requirements of these Environmental Management System standards.

**Duration:** 2 days.

### Aim of the course

Help you and your organisation/institute understand the requirements of the next generation ISO Management System standards in general and the quality management system specific requirements as stated in the ISO 14001:2015 standard.

### At the end of course

You will have a very good understanding of:

- What needs to be considered when developing or upgrading your existing Management Systems to meet the \*High Level Structure (HLS) requirements?
- Requirements of the 2015 versions of the ISO 14001
- Types of emerging stake-holder (interested parties) pressures on your business.
- Risk analysis - types of risks linked to your business processes
- The new versions of the standards as enablers for sustainable business performance.

### Who should attend?

EMS Managers, QES managers, Sustainability Managers, Executives & professionals engaged in the development or preparing for the upgrade of existing Management Systems.

- Trainers and consultants who search for basic knowledge related to the changes expected in the revised ISO 14001

### Focus areas

- Evolution of Management System (MS) standards.
- Reasons behind the changes in ISO 14001:2015.
- Introduction to ISO HLS\* - Common framework for ISO management system standards.
- An overview of all the requirements of the ISO 14001:2015.

### Why this course?

- This course fulfills the IRCA pre-requisite entry requirements for both the 2 Days Internal Auditor and 5 Days Lead Auditor Training course.
- Greater understanding of the advantages and opportunities will offer for your (integrated) management system.
- Highly interactive exercises and case studies.
- Discussion with peers facing similar challenges when developing or upgrading their management system.
- Working sessions to consider impact to your own organisation's management system.
- Course developed and conducted by experienced lead auditors & trainers.
- Number of participants for each course is restricted to ensure effective involvement of every participant.
